FROM THE AUTHOR

This book is not intended to be a gourmet cooking guide but gets down to the nitty-gritty of how to create real meals when there is nothing much around to eat. In Dirty Dining, I've shared lessons learned from my time travelling the world and from my background as a health and fitness professional. I want to show you how, with just a small selection of basic foodstuffs, it is possible to produce quick, tasty and nutritious meals.

Lioness Press are as passionate about presenting and printing my delicious book as I am. I was desperate to be able to present my travels, and recipes with improved quality, brighter pages and really wanted the recipes, meals and photos to jump off the page. This quality of the new book is what I'd always hoped it would. I'm beyond proud and excited.

“Visually stunning, this hugely entertaining book is packed with hard earned on the road experience, top healthy eating tips, and mouth-watering recipes that are so good you'll want to be using them at home, too. Even novice cooks will find the recipes easy to follow; each is a taste bud journey and there's no better introduction to the flavours of the world. For me, an important part of the beauty of this collection of recipes is that none will burn your travel budget. Never has so much tasty and practical cookery advice been put in one place with so much fun involved. I guarantee you'll be smiling as you cook! —Sam Manicom, Author, Motorcycle Adventure Travel Books
